

LITERACY SUPPORT WITH READ AND WRITE GOLD

TextHELP Read and Write Gold is a suite of literacy support tools that can be used to assist with reading and composing text. It also offers support for study and research.

The program 'floats' on the screen and supports the use of any software application the student is using.

Read and Write Gold is suited to students in upper primary and secondary settings.

Participants will explore the various assistive tools including the program's ability to convert text to an audio file and how it scans and creates electronic text from a range of sources.

Venue

Special Education Resource Unit
72A Marlborough Street
Henley Beach SA 5022
