

NEWS TALK FOR TEACHERS

A resource to develop speaking, listening & literacy skills for preschool & school aged children

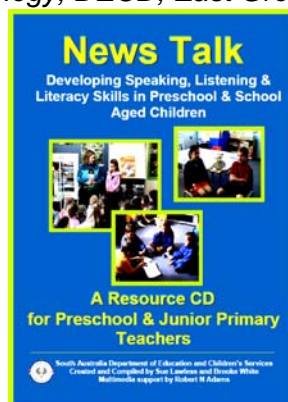

Developed by SA Department for Education and Child Development (DECD) Speech Pathology

News Talk for Teachers presents great ideas in a simple, easy to use and exciting format to reenergize news telling routines or plan an enviable news programme for the first time. Learn how a developmental perspective of news telling can build upon a child's oral language skills so that they become competent in understanding and using the language of school. This builds a solid foundation for a child's success right across the curriculum. News Talk is an essential part of your curriculum!

"I am very impressed with the accessibility and depth of this exciting resource - teachers will appreciate the creative ways newstelling can be used to explicitly teach oral language skills"
Karen Cornelius, Principal Reynella East CPC-7 School

"News Talk gives practical ideas and demonstrates strategies that can be used with individuals, in small groups and with the whole class. These oral language skills are critical to successful literacy development. A must for teachers and support staff"
Carolyn Cole, Manager Speech Pathology, DECD, East Group of Districts
