Making Learning Accessible Using the iPad

Presented By

Candice Fiegert

Date: 16 Feb 2017

Time: 4.00 - 5.30

Places limited to: 20

Cost: Free

Venue: Training Room Special Education Resource Unit

This workshop will provide an introduction to the range of assistive technology apps that are available to support curriculum implementation for students with special educational needs. Participants will explore the accessibility features built into the latest version of the iPad's operating system and how students can use these supports to access the curriculum. All year levels.
